OBJECTIVE

To become a software developer utilizing skills I have obtained through my schooling to create, test, maintain and design different varieties of software.

EDUCATION

Saint Louis Community College (Saint Louis, Missouri)
Launchcode Graduate

- Designed a blog web application with features such as; login validation, posting articles, and querying databases.
- Worked on existing projects to add new features for searching and displaying results, building new classes, and adding ORM functionality to a web application.

WORK EXPERIENCE

Assistant Department Manager, Lucky's Market, Rock Hill, Missouri

**March 2018-
Present**

- Manage employees, and take various forms of payment from customers such as cash, check, card, EBT cards, coupons, and rewards cards
- Analyze sales records in order to anticipate consumer buying patterns to determine how much inventory is needed.
- Work directly with vendors to obtain and develop desired products.

Auditor, Marriott, Hillsboro, Oregon

**April 2016-
November 2017**

- Perform office duties including: filing, answering telephones, and handling routine correspondence.
- Reconcile, note, and report discrepancies found in records.
- Verify figures, postings, and documents for correct entry, mathematical accuracy, and proper coding.

PROFESSIONAL SKILLS

- Problem solving under pressure
- Detail oriented especially when it comes to reading and writing code
- Able to sufficiently manage a team and communicate openly and honestly with team members
- The ability to organize work and plan projects properly

TECHNICAL SKILLS

- C#, .NET, HTML, CSS, Python, MySQL
- Microsoft Visual Studio
